With the introduction of the 5i Series, Aastra significantly expands our IP Telephone family to become one of the most complete offerings in the industry. Style, mobility options, and the inclusion of expansion modules all add up to choice, flexibility and expandability in a full range of carrier/enterprise grade quality SIP Telephones.

Aastra's 5i family of telephones feature large screens supporting advanced productivity enhancing XML applications, elegant global styling, and optional add on modules for console and reception purposes.

All Aastra SIP phones offer:

- » Embedded XML browsers
- » Advanced, integrated interoperability with major IP telephony platforms
- » Full duplex speakerphones
- » Multiple line/call appearance lights
- » Simplified deployment
- » Intuitive, user friendly screen menus and interfaces
