Polycom® SoundStation® IP 5000
IP Conference Phone

Advanced IP conference phone with Polycom HD Voice™ clarity, designed for small conference rooms and executive offices

The Polycom® SoundStation® IP 5000 conference phone delivers remarkably clear conference calls for small conference rooms and executive offices. It features Polycom HD Voice™ technology, broad SIP interoperability, and a modern design that is ideal for smaller rooms—all at an affordable price.

With Polycom HD Voice technology, the SoundStation IP 5000 conference phone boosts productivity and reduces listener fatigue by turning ordinary conference calls into crystal-clear, interactive conversations. It captures both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there.

For all calls, the SoundStation IP 5000 conference phone delivers advanced audio performance that is designed for executive offices and smaller conference rooms with up to 6 participants. From full-duplex technology that eliminates distracting drop-outs to the latest echo cancellation advancements, only Polycom can deliver a conference phone experience with no compromises. Conference calls are made more productive and efficient by three sensitive microphones with 360° coverage that allow users to speak in a normal voice and be heard clearly from up to 7 feet away. The phone also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications without distractions.

The SoundStation IP 5000 leverages Polycom’s strong history in both conference phone and VoIP technology to deliver the most robust standards-based SIP interoperability in the industry. It shares the same SIP phone software base with Polycom’s award-winning SoundPoint IP products—the most comprehensive, reliable and feature-rich SIP products in the industry with proven interoperability with a broad array of IP PBX and hosted platforms.

Robust provisioning, management, and security features make Polycom’s family of IP conference phones the only choice for meeting rooms in SIP-based environments. Integrated Power over Ethernet (PoE) simplifies setup, with an optional AC power kit available for non-PoE environments. Plus, the SoundStation IP 5000 conference phone includes a high-resolution backlit display for vital call information and multi-language support.

Benefits

Unparalleled clarity – Polycom HD Voice makes your conference calls sound amazingly clear and life-like

More productive conference calls – Patented Polycom Acoustic Clarity™ technology delivers the best conference phone experience with no compromises

Ideal for smaller rooms – 7-foot microphone pickup and a small footprint designed for executive offices and smaller conference rooms with up to 6 participants

Advanced IP feature support – the most feature-rich family of IP conference phones available, with advanced call handling, security, and provisioning features

Robust interoperability – compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration
### Polycom® SoundStation® IP 5000 Conference Phone

#### Specifications

**Power**
- IEEE 802.3af Power over Ethernet (built in)
- Optional external universal AC power supply kit: 100-240V, 0.4A, 48W/19W

**Display**
- Size (pixels): 248 x 68 (W x H)
- White LED backlight with custom intensity control

**Keypad**
- Standard 12-key keypad
- Context-dependent soft keys: 4
- On-hook/Off-hook, redial, mute, volume up/down
- 5-way navigation
- Menu

**Audio Features**
- Loudspeaker
  - Frequency: 250 – 7,000 Hz
  - Volume: Adjustable to peak volume 84 dB at 1/2 meter distance
- Voice activity detection
- Comfort noise fill
- DTMF tone generation / DTMF event RTP payload
- Low-delay audio packet transmission
- Adaptive jitter buffers
- Packet loss concealment
- Acoustic echo cancellation
- Background noise suppression
- Supported Codecs
  - G.711 (A-law and µ-law)
  - G.729a (Annex A, B)
  - G.722
  - iLBC

**Network and Provisioning**
- Ethernet 10/100 Base-T
- IP Address Configuration: DHCP and Static IP
- Time synchronization with SNTP server
- FTP / TFTP / HTTP / HTTPS server-based central provisioning for mass deployments. Provisioning server redundancy supported.
- Web portal for individual unit configuration
- QoS Support -- IEEE 802.1p/Q tagging (VLAN), Layer 3 TOS and DSCP
- Network Address Translation (NAT) support - static
- RTCP support (RFC 1889)
- Event logging
- Local dial plan
- Hardware diagnostics
- Status and statistics
- User selectable ringer tones
- Field upgradeable

**Audio Features**
- Volume: Adjustable to peak volume 84 dB at 1/2 meter distance
- Frequency: 250 – 7,000 HZ
- Do not disturb function
