Polycom® SoundStation2™ Avaya 2490
Setting the Standard. Again.

For Avaya DEFINITY users, communicating with crystal clarity couldn’t be easier. Just connect a SoundStation2 Avaya conference phone directly into a DEFINITY ECS digital wall jack. You don’t need an analog port, analog adapter, or complicated connections to take advantage of natural two-way conversations with Polycom’s breakthrough Acoustic Clarity Technology. Polycom’s SoundStation2 product line has redefined the standard for business-quality voice conferencing. With industry-leading full duplex for natural, simultaneous two-way conversation, the SoundStation2 Avaya conference phone will exceed your expectations in medium to small conference rooms. Delivering remarkable voice quality equal to the original SoundStation Premier® 500D/550D conference phone and a 50% increase in microphone sensitivity over the award-winning SoundStation, users can speak in a normal voice and be heard clearly up to ten feet away – making every call a more productive call.

SoundStation2 Avaya conference phone provides users with advanced features, including a large backlit display that offers easily visible call information and telephone functions. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. And the SoundStation2 Avaya conference phone offers 360-degree microphone coverage with intelligent mixing – so only the microphone closest to the speaker is on for crystal clear conferencing. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions. Plus, the SoundStation2 Avaya conference phone provides direct access to your Avaya DEFINITY’s conferencing feature, allowing quick and easy connections of up to six* locations in a single conference call without using a conference bridging service.

Benefits

► More productive calls – Polycom’s patented Acoustic Clarity Technology allows simultaneous, natural, freeflowing conversation

► Hear and be heard clearly – Twice the loudness and microphone sensitivity of the original SoundStation – eliminates ear strain and repetition

► Resists interference from mobile phones – Clearer calls with no distracting noise from wireless devices

► Backlit display provides important information – Displays console phone number, number called, duration/progress of call

► Ability to increase coverage – Optional extension microphones expand coverage for larger conference rooms

► DEFINITY ECS conferencing feature – Direct access to your Avaya DEFINITY’s conferencing feature allows quick and easy connections of up to six* locations in a single conference call without using a conference bridging service

*Dependent upon DEFINITY ECS configuration
Polycom® SoundStation2® Avaya2490 Specifications

Architecture
- Tabletop console contains audio processing functions and keypad. Wall module contains power and PBX line interfaces.
- Cables consist of 21 ft (6.4 m) single-cord connection to tabletop console and 6 ft (1.8 m) connection to RJ-11 telephone jack. Optional Extended microphone modules connect to console via 7 ft (2.1 m) cables

Console
Size (L x W x H)
- 14.5 x 12.25 x 2.5 in
- (36.8 x 31.1 x 6.4 cm)
Weight
- 1.75 lb. (0.8 kg)
Power
- 110V 60Hz AC / 220V 50 Hz AC (depending on country-specific SKU)

Network interface
- Avaya DEFINITY ECS

PBX Compatibility
- Compatible with any DEFINITY voice port that supports the 6400, 7400 or 8400 series phones (except the Callmaster series)
