Polycom® SoundStation2™
Setting the Standard. Again.

The standard for everyday conferencing to access the power of Polycom unified collaborative communications solutions.

The SoundStation2, Polycom's next generation conference phone, is redefining the standard for business quality voice conferencing. With industry-leading full duplex for natural, simultaneous two-way conversation, the SoundStation2 will exceed your expectations in medium to small conference rooms. Delivering remarkable voice quality equal to the SoundStation Premier® and a 50% increase in microphone sensitivity over the award-winning SoundStation, users can speak in a normal voice and be heard clearly up to ten feet away – making every call a more productive call. There are three SoundStation2 models: SoundStation2, non-expandable, SoundStation2, non-expandable, with display, and SoundStation2, expandable, with display.

SoundStation2 provides users with advanced features, including a large backlit display that offers easily visible call information and telephone functions*. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. And the SoundStation2 offers 360-degree microphone coverage with intelligent mixing – so only the microphone closest to the speaker is on for crystal clear conferencing. Add traditional telephone features like redial, mute, transfer, and hold and you have a conference phone that's also familiar and easy to use. Plus, the Applications Port allows you to connect your SoundStation2 to your mobile phone for productive conference calls over mobile phone networks, and to your computer for making calls over the Internet.*

The new standard for everyday conferencing to access the power of Polycom unified collaborative communications solutions. With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience. Our market-leading conferencing and collaboration technologies, supported by world-class service, enable people and organizations to maximize their effectiveness and productivity. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for organizations seeking a strategic advantage in a real-time world.

Benefits
► More productive calls – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, freeflowing conversation
► Hear and be heard clearly – Twice the loudness and microphone sensitivity of the original SoundStation® – eliminates ear strain and repetition
► Backlit display provides important information – Displays console phone number, number called, duration/progress of call and supports worldwide Caller ID**
► Ability to increase coverage – Optional extension microphones expand coverage for larger conference rooms
► Easy to use and install – Connects into any analog phone jack and can be connect to a PBX with an analog extension

*Optional accessories required to use Applications Port. Not available on all models.

** Not available on all models.
Polycom® SoundStation2® Features and Specifications

### Console
- **Size (L x W x H)**: 14.5 x 12.25 x 2.5 in (36.8 x 31.1 x 6.4 cm)
- **Weight**: 1.75 lb (0.8 kg)
- **Power**: 110V 60Hz AC / 220V 50 Hz AC (depending on country-specific SKU)
- **Network interface**: Two-wire RJ-11 analog PBX or public switched telephone network interface
- **Keypad**: Standard telephone keypad, on/off key, conference (Flash) key, mute key, volume adjustment keys, menu navigation keys and three context-dependent soft keys*
- **Display**: 132x65 pixel backlit graphical LCD
- **User interface**: User selectable ring tones
- **Configurable soft keys**: For easy dialing of voice conferencing services
- **Multi-lingual support**: English, German, French, Italian, Spanish, Portuguese, Norwegian
- **Password protected configuration settings for administrators**

### Caller ID and phone book*
- **Support for multiple Caller ID standards**:
  - Bellcore Type 1 (requires a telephone compansubscription for activation)
  - ETSI
  - DTMF
  - British Telecom
- **Phone book/speed dial list**: Up to 25 entries*
- **Keypad**: 12-key telephone keypad
- **On-hook/off-hook, conference, mute, volume up/down keys, menu, navigation keys**
- **3 context sensitive soft keys** including redial, hold, programmable conference key

### Console loudspeaker
- **Frequency response**: 300 to 3300 Hz
- **Volume**: Adjustable to 94 dBA SPL (peak) volume at 0.5 meters

### Console microphones
- **3 cardioid microphones**: 300 to 3500 Hz
- **Polycom Acoustic Clarity Full duplex**: IEEE 1329
  - **Type 1**
  - **Up to 10 ft. microphone pick-up range**
  - **Gated microphones with intelligent microphone mixing**
  - **Dynamic noise reduction**

### Interfaces
- **2 EX microphone connections**
- **Applications Port** for connection to other communication devices such as mobile phones† and computers
- **RCA Auxiliary audio jack**

### Accessories
- **2 cardioid extension microphones**: 300 – 3500 Hz (for EX model only)

### Regulatory compliance
- **NA CI/C-UL**
- **FCC Part 68**
- **CE Mark (R & TTE Directive)**
- **VCCI Class B (Japan)**

### Environmental requirements
- **Relative humidity**: 20% - 85% (noncondensing)
- **Operating temperature**: 40° - 104°F (5° - 40°C)
- **Reverberation time**: <0.5 seconds
- **Noise level**: <48 dBa

### Recommended room conditions
- **Noise level**: <48 dBa
- **Reverberation time**: <0.5 seconds
- **Relative humidity**: 20% - 85%
- **Operating temperature**: 40° - 104°F

### Recommended room conditions
- **Reverberation time**: <0.5 seconds
- **Noise level**: <48 dBa

### Warranty
- **1 year**

### Part Numbers (North America)
- **2200-15100-001**: SoundStation2, non-expandable
- **2200-16000-001**: SoundStation2, non-expandable, with display
- **2200-16200-001**: SoundStation2, expandable, with display
- **2200-16155-001**: Extension microphone kit

* Not available on all models
† Due to the diversity of Caller ID standards, some features may not be available in all areas. In addition, the quality of the telephone line connection may affect Caller ID functionality. Caller ID service may require a subscription from a service provider in your area.

Connecting the SoundStation2 to a mobile phone is analogous to connecting a headset to a mobile phone. Not all mobile phone models recognize the SoundStation2 as a headset. For a list of mobile phones that are known to work with SoundStation2, please consult www.polycom.com.
