Jabra

GN2000

DESIGNED TO PERFORM – BUILT TO LAST.

The GN2000 Series lets you hear every detail, the first time. For PC-based IP telephony, the GN2000 IP supports the full IP network bandwidth for applications such as speech recognition, voice-over-IP calling and computer-based training. For traditional telephony applications, the GN2000 is the ideal headset for the busy and noisy environment, utilizing the full frequency of the telephone network to ensure exceptional sound quality on every call.

From its sturdy rubber-plastic composite to all-metal boom pivots and impact resistant headbands, every detail of the GN2000 Series has been designed with durability in mind – making it the perfect choice for even the most demanding contact centers.

GN2010 ST

GN2025 NC

GN2020 IP

GN2000 USB
