CALL CONTROL AT YOUR FINGERTIPS

With a wireless Jabra headset users can answer and end calls up to 350 feet away from your PC or desk phone! Jabra headsets for Office Communicator have integrated buttons for answering and hanging up a call and adjusting the volume. Simply press the dedicated "Hook switch" button to answer a call. To end a call, press the same button again.

PLUG-AND-PLAY

The seamless integration of software and Jabra headsets provides users with superb call clarity and a hands-free, wireless work experience. There are no drivers to install. Just plug the headset into the USB port and Microsoft Office Communicator will recognize the headset.

TRUE WIDEBAND SOUND

While other so-called "wideband" headsets cut-off around 4,000 Hz, Jabra USB headsets provide a full frequency response up to 6,800 Hz for optimum call clarity resulting in significantly less need to ask customers to repeat themselves. Moreover, Jabra headsets feature PeakStop™ technology, which protects users by eliminating sudden loud noises above 118 dB SPL.

Jabra®

THE JABRA UNIFIED COMMUNICATIONS EXPERIENCE

In close co-operation with Microsoft, GN Netcom has pioneered the integration of softphone and headsets to create a seamless, intuitive communication experience. We have been working with Microsoft since the very first deployment programs. Today we offer the most extensive portfolio of headset solutions optimized for Office Communicator on the market.

HANDS-FREE ADVANTAGE

A Jabra headset frees your employees' hands so they can get up, stretch and even move around if they have a wireless headset. The enhanced flexibility and the ability to multitask will not only make your employees feel liberated and happy, but also make them far more productive! They can walk about. Pick up a file from a colleague. Grab a printout from the copier and still be on the phone with a customer.

Through its Jabra brand, GN Netcom is a world leader in innovative headset solutions. With offices around the world, GN Netcom develops, manufactures and markets a broad range of wireless headsets and speakerphones for mobile users and both wireless and corded headsets for contact centre and office-based users. GN Netcom's business activities also include its original equipment manufacturing (OEM) business. GN Netcom is a subsidiary of GN Store Nord A/S.
