

Jabra

T5330MULTIUSE

Superior freedom for desk and mobile phones

With the Jabra T5330 Multiuse headset you can go wireless simply, effectively and affordably. Cut the cord to your phone and experience how wireless freedom makes your working day more comfortable and productive.

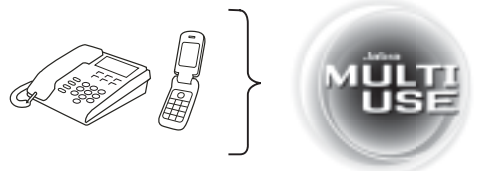

It connects wirelessly to your Bluetooth mobile phone and simultaneously to your corded desk phone. So now you need just one headset for your phone calls.

Developed for the active professional in the office, the Jabra T5330 Multiuse is very easy to use and compatible with most phones. It gives you up to 10 metres of wireless freedom.

The Jabra T5330 Multiuse headset gives you wireless freedom both inside and outside the office.

Stay connected without being plugged in

Jabra

What is Multiuse?	Multiuse is a range of Jabra headsets from GN featuring MultiPoint technology that allows simultaneous connection to several Bluetooth enabled devices
What is Bluetooth wireless technology?	Bluetooth wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. Bluetooth facilitates fast, secure transmissions of both voice and data. More information is available at www.Bluetooth.com or www.Bluetooth.org
