

### Internal Remote Access Device Key Code Upgrade

The IRAD Software Key Code allows a customer who has purchased a Compact ICS with Standard Software or Restricted Software to enable the internal Remote Access Device.

### Fiber Expansion Cartridges for MICS

- ✓ Two or six-port Fiber Expansion Cartridges connect additional Fiber Trunk, Fiber Station, or Analog Station Modules to expand core Modular ICS capacity.
- ✓ The Fiber Expansion Cartridges fit into slot 2 (a half-width slot) of the ICS. The other half width slot (slot 1) is reserved for the Services Cartridge.
- ✓ With XC software, two Six-Port Expansion Cartridges can be installed in the Modular ICS, the first in Slot 2, the second in Slot 1 only with XC software.
- ✓ Compatible with the Module ICS core only.
