

## Norstar CTA 200

The Norstar CTA 200 is an external device for the advanced CTI user that connects a PC to the Norstar system. The CTA 200 delivers both RS-232 and Universal Serial Bus (USB) connectivity with flash memory for a new level of functionality. As with all of Norstar's desktop CTI peripherals, the CTA 200 is bundled with the Personal Productivity Suite. It's discontinued product.
